FOR IMMEDIATE RELEASE

DISTRICT CAFETERIA TO UTILIZE NEW TECHNOLOGY

BUCYRUS, OH (Oct. 14, 2010) – The Bucyrus City School District is using technology to their advantage not only in the classroom but now in the cafeteria. The District has launched LunchBox and e-Funds for Schools effective Friday, Oct. 15. LunchBox and e-Funds for Schools, two online resources for parents, make lunch payments as quick and easy as the click of a mouse. Parents have 24-hour access allowing them the following options:

With the **LunchBox** account, a parent can...

- View and print the student's cafeteria transaction history
- Set spending limits for the student
- Check to see how much money the student has in his/her cafeteria account
- Quickly access the e-Funds for Schools account to deposit funds

Please note, due to a recent upgrade all parents who were previously registered through the LunchBox program will need to create a new account.

With the **e-Funds for Schools** account, a parent can...

- Make deposits to the student's cafeteria account via the web
 - Pay by checking account (ACH) - \$1.00 fee per transaction
 - Pay by credit/debit card - \$2.49 fee per transaction
- Receive an e-mail reminding them of low funds in their child's account

Creating an account is free and easy and your information is kept fully confidential. For more information about LunchBox or e-Funds for Schools visit our website at www.bucyrus.k12.oh.us and click on the food services tab. You can also contact Lorie Pennington at foodservice@bucyrusschools.org. Keep an eye out for a step-by-step tutorial, coming soon.
